PROFESSIONAL SUMMARY

AI and Data Science enthusiast with hands-on experience in Machine Learning, Computer Vision, NLP, and Generative AI. Skilled in building AI-powered applications, data pipelines, and ML models to solve real-world problems. Experience supporting model training, dataset preparation, and evaluation in production environments. Passionate about building scalable AI solutions using modern ML frameworks and cloud technologies.

TECHNICAL SKILLS

Programming: Python, SQL

AI / ML: Machine Learning, Deep Learning, NLP, Computer Vision, Generative AI, LLM Applications

Frameworks & Libraries: TensorFlow, PyTorch, NumPy, Pandas, FastAPI

Tools & Platforms: Git, GitHub, Streamlit, AWS

Concepts: Model Training, Data Annotation, Model Evaluation, Statistical Analysis, AI Deployment

PROFESSIONAL EXPERIENCE

AI Data Analyst

Way.com – Trivandrum, Kerala

Feb 2025 – Present

- Worked on data preparation and annotation pipelines for Computer Vision and Deep Learning models.
- Supported ML model training, validation, and performance evaluation in collaboration with AI engineers.
- Assisted in building datasets for model optimization and accuracy improvement.
- Contributed to AI model deployment workflows for internal demos and production testing.

PROJECTS

AI Interview Preparation & Evaluation System (LLM Application)

- Developed a GenAI-powered interview preparation platform using Gemini 2.5 Flash.
- Generates role-specific technical questions and performs AI-based candidate evaluation with feedback.
- Implemented backend logic and integrated LLM APIs for automated assessment and insights.

YOLO Crowd Detection & Counting System

- Built a Computer Vision application using YOLO to detect and count people in images and videos.
- Developed an interactive Streamlit web interface for real-time object detection and visualization.
- Enabled automated crowd monitoring with bounding boxes and live count results.

AI Image Caption & Tag Generator (Multimodal AI)

- Implemented a Vision-Language AI system using BLIP for automatic image caption generation.
- Generates descriptive captions, tags, and categories from uploaded images.
- Demonstrates multimodal AI capabilities combining computer vision and NLP.

EDUCATION

PG Diploma in Data Science & AI

Edure Learning Pvt Ltd – Thiruvananthapuram

2023 – 2024

B. Com – Commerce with Computer Application

IHRD College of Applied Science Kundara

University of Kerala

2020 – 2023
